ESTABLISHED 1833. FRIDAY, JUNE 11, 1897. PRICE TWO CENTS.

The frontispiece of "Fashions" for June is a strikingly artistic page, showing a stylish riding habit and a practical as well as beautiful mountain costume. The gowns pictured throughout the number are all especially seasonable, and include a Redfern yachting costume, commencement dresses, a tennis suit, various kinds of negligee and fluffy dresses of summer goods for all sorts of occasions.

Mrs. Julia Ward Howe contributes the opening article, which is accompanied by a fine recent portrait of the author. A brief description of the new Congressional Library and latest notes on women's work at the Tennessee Centennial are of interest. Students of Flower lore will be delighted with Isabel Worrell Ball's dainty study of "The Flower of June," while every true woman will heartily endorse the sentiment in Florence Howe Hall's treatment of the subject "Courtesy to Our Social Inferiors."

"The Meeting of the Waters" is a charming story of Southern life by Jeanetta H. Walworth; and "What Was in a Name," is a clever skit by Allice Wellington Rollins.

Large space is devoted to articles suggesting summer occupations, games, and flower culture. "The Etiquette of Weddings" will settle many a vexed question. Embroidery is seasonable all the year round, and three Colonial designs are given to tempt deft fingers to copy them in the leisure hours of summer. The latest novelties in millinery, shoes, parasols, pocketbooks, belt bags, etc., are described, and nothing has been neglected to give "Fashions" readers thoroughly up to-date information in all matters of feminine accessories.

A BIG STORM.

Several Washouts, a $25,000 Fire and Minor Losses.

A Cloud Burst on Pike's Peak Stops Railway Traffic--One Man Killed and Others Injured.

DENVER, Colo., June 11.—Four railway washouts, a $25,000 fire and a host of minor losses epitomize the evil results of the storm which prevailed in Denver and the southeastern section of the state generally from near 7 o'clock last evening until a little after midnight. A cloud burst on the slope of Pike's peak shut off traffic on the Rio Grande and Midland lines between Manitou and Colorado Springs. Sixteen miles out of Denver the Julesburg tracks were washed out in spots for miles in length, leaving the 10:30 o'clock Union Pacific train for Chicago stalled at the Union depot. The washout on the Burlington and Missouri River railroad occurred near Barr station, and the 9:50 train over that line for the east was not able to leave Denver until this morning. Men were at work all night repairing the damage done by the storm. According to the weather bureau report, 83-100 of an inch of rain fell in Denver between 6:40 and 10:10 o'clock. From the time the storm reached its height travel ceased upon the street car lines, which were either inoperative altogether or gave but poor service. Many parts of the city were flooded to a depth of several feet, a number of families having abandoned their homes. It is feared that ranchmen living in low lands to the east of this point have lost heavily in stock and buildings by the night's floods. The storm was general all over southwestern Colorado.

ONE KILLED AND MANY INJURED.

LYLE, Minn., June 11.—So far as known this morning Henry Hanson was the only man killed by last night's tornado. There are ten injured, some of them so badly that further deaths are possible. They are as follows:

Peter Hanson, broken leg and arm, otherwise badly bruised.

Mrs. Peter Henson, serious contusions.

Robert, son of Peter Hanson, head injured.

Charles Larson, wife and child; Mrs. Stipe, Christian Peterson, Maude Peterson, Peter Peterson, Charles Severson, Mrs. W. A. Frazer, Mrs. M. L. Hugheson, William Brooks and wife.

CRAVEN-FAIR.

Unexpected Turn in the Celebrated Will Case.

The Heirs and Executors Call Mrs. Craven to the Stand and Will Try to Prove Conspiracy.

SAN FRANCISCO, June 11.—The Craven-Fair case has taken an unexpected turn. The attorneys for the heirs and executors have called Mrs. Craven to the stand and secured from her the admission that in 1895 she had taken the disputed deeds to Sacramento and there shown them to two men named Cullen and Bonner.

Then she was asked the significant question by Attorney Wheeler:

"Now, Mrs. Craven, have you ever entered into an agreement or contract whereby Mr. Cullen is to be given directly or indirectly a contingent interest in the property in dispute in the event that you win this case?"

Attorney Delmas objected. "I expect to prove in part by this witness," replied Wheeler, "an organized conspiracy in which, by means of forged documents and perjured testimony the Fair estate was to be looted."

"Proceed," said Delmas, but adjournment of court cut further questions off temporarily.

THE BAKERS' STRIKE.

The Employers Settle With the Union Men.

L. P. Scherer, Michael Wehrle and Messerschmidt & Baumgart have signed an agreement with the Trades and Labor council to put their men back to work and recognize the Journeymen Bakers' union scale.

This morning the bread of these three bakeries appeared with the union label of the Journeymen Bakers' and Confectioners' International Union of America, evidence so long as the strike lasts that bread is made by a union bakery.

The bakery conducted by the strikers will continue in operation until all the bakers have signed an agreement.

The return to work of a part of the men on a strike by the settlement with the three firms named above, will necessitate the rearrangement of the working force at the bakery conducted by the strikers.

Two of these firms controlled, it is said, previous to the strike, nine-tenths of the wholesale trade of the city, and this will, as a natural consequence, mostly return to them.

The strikers claim they will now attempt to control the retail trade of the bosses who have not yet signed.

HUNTING HIS BROTHERS.

Believes They Have Been Scalped by the Indians.

LOS ANGELES, Cal., June 11.—S. J. Dorland, of Akron, N. Y., is in Los Angeles on his way to the desert to hunt for his brothers, Pete and Ben, whom he believes to have been scalped by Indians. Dorland is undoubtedly the victim of a cruel practical joke. He received a letter signed by D. E. Mirean, declaring that both Pete and Ben Dorland had been massacred by Indians. Today Mr. Dorland will go to Thompson, a station in the desert, from where the letter was received, to try to find some trace of the young men.

GORDY HANGED.

He Made a Statement on the Scaffold.

Asserts His Innocence to the Very Last--His Principal Grievance Was Against the Newspapers.

GEORGETOWN, Del., June 11.—James M. Gordy was hanged at 10:26 o'clock this morning for the murder of his wife. He died game and protested his innocence to the last.

Gordy made a statement on the scaffold. He reviewed at length the evidence on which he had been convicted, pointing out what he considered the inconsistencies therein, suggesting connivance of his sister-in-law with the detectives to secure his conviction. His greatest grievance, however, was against the newspapers. In this connection he said: "In regard to the newspapers, I'm sorry people believe all they say. They are the greatest falsifiers that I ever heard of and are largely responsible for people thinking so ill of me today. I thank God though that the day will come when newspaper men will have to give an account for their deed done in the body. It don't hurt my soul what you say about my body. In spite of all I can still put my trust in the Lord, who will never leave or forsakeine. He is greater than man."

After a long and somewhat rambling statement of his religious hopes and beliefs, he concluded: "For the sheriff, his assistants, the minister, my counsel and all others concerned, I have only kind words to speak. They, I believe, have done what they could for me. To all I say good bye. You believe I'm guilty. God and I know I am not. I believe I'm going to Heaven. I do hope you who hear and those that read my statement will ultimately enter the rest that remains for the people of God. Farewell."

The crime for which Gordy was hung was the murder of a woman whom he had married in New York only about two weeks before. Gordy was a widower and there was a strong suspicion that his first wife had been murdered. In December, 1895, the body of a woman was found floating in the river near Georgetown with the skull crushed in. Investigation proved that Gordy had been seen with her near the river shortly before the body was found and further search proved that he had clandestinely married her in New York about two weeks before. Other damaging evidence was found, including a hammer with hair and blood stains on it in Gordy's barn. It was on circumstantial evidence that he was hung. Public feeling ran high against him during his trial and there was much talk of mob violence, but this did not mature.

CORONER'S VERDICTS.

Coroner Kappel yesterday returned his verdicts in the Lakeside accident cases. The evidence of the inquest was attached to the verdicts in typewritten form and covered 141 pages.

The verdicts blame no one for the accident and simply give the cause of the death. The verdict in the case of Alexander Brown states that he came to his death by reason of internal injuries received by the sudden accidental caving in of a waterworks trench upon him, causing instant death; said trench being on St. Joe boulevard in the city of Fort Wayne.

The decisions in the cases of Albert Dennis and James Christie were the same. That of the case of Patrick Sheehey was the same with the exception that Sheehey was injured in the accident and died three hours later.

Such is the Supreme Court's Decision, Rendered in the Case of the Citizens' Street Car Company.

INDIANAPOLIS, Ind., June 11.—The supreme court of Indiana today decided that the three cent street car fare law is constitutional. It relates to Indianapolis only. In the federal court recently the same law, passed by the last legislature, was declared unconstitutional and injunctions were granted by Judge Showalter against its enforcement. The state will insist on three cent fares unless the street car company secures an injunction, pending an appeal to the federal supreme court.

Although Friend's residence has been in this city he seldom came home. After his trouble in the courts here he went to Ohio but his wife remained here, residing at 248 St. Mary's avenue. HORSES GO WILD.

Two Exciting Runaways on South Calhoun Street.

Several Vehicles Wrecked--Pedestrians and Drivers Luckily Escape--A Small Boy's Mistake.

There was a runaway near the south depot last evening which good luck alone prevented being of a very serious nature. Will Spencer, driver of one of the Fort Wayne laundry wagons, was driving along Baker street when the king bolt dropped from his wagon and frightened the horse, which started to run away. The top was turned completely from the vehicle before the horse turned south on Calhoun street with the wheels dragging behind him. George Sherry, a thirteen-year-old lad, was sitting in a buggy in front of the Harmon house and attempted to get out when he saw the approaching runaway, but was not quick enough. The wheels of the laundry wagon struck the buggy and young Sherry was thrown to the pavement. He held to the lines and was picked up by by-standers. He was bruised about the limbs and badly frightened, but the injuries were not serious. Across the railroad the wagon struck a telephone pole and the rear wheels were torn off. The horse was tired when it reached Dawson street and was easily stopped. Will Spencer was not hurt.

ANOTHER ONE.

The second runaway also occurred on the south side, starting in front of a house on Allen street. A horse belonging to Charles Degitz, the south side meat dealer, was left standing while the driver went into the yard to deliver meat. A ball thrown by a youngster in a field near by struck the animal, which became frightened and ran north on Calhoun street at a gallop. Several vehicles were struck along the route of the runaway but all of them fared pretty well until Zoeller & Merz's grocery was reached. Here the firm's delivery wagon was struck and a general wreck of both wagons resulted. Further disaster and possible injury was prevented by prompt action of pedestrians, who caught both horses.

OTHER ACCIDENTS.

A four-year-old lad named Willie Maiers swallowed moth balls yesterday, thinking that they were candy. He was taken to the office of Dr. Ranke, who administered an emetic and saved the little fellow's life.

Several lady riders and their escorts turned the corner of Wayne street and Glasgow avenue at a lively speed last evening and the result was a bad mix-up. Several wheels were damaged so badly as to be unfit for use.

The junior country club will take a run at 9:45 tomorrow morning. All the juniors who ride are expected to go.

The meeting of the organization of the tennis clubs will be held Monday evening at 7:30. All members of the association who expect to play tennis are asked to be present at that meeting.

The country club will take a short run to Stellhorn bridge this evening leaving the association at 4:45. The first runs of the club will be short so that the new riders in the association may not fear to join the club.

The summer conference of the Y. W. C. A. will be held at Lake Geneva, Wisconsin, July 2 to 12. It is hoped the Fort Wayne association will have a representative there.

NEED FUNDS.

Fifty Dollars Needed by the U. V. L. to Defray the Monument Expenses.

The patriotic inclined citizens are requested to interest themselves to the extent of a small donation to defray the balance of expenses incurred by the placing of cannon and shells at the north side monument. There remains an indebtedness of about $50. The Union Veteran legion has pledged itself to pay this and the members ask the kind consideration of persons who are in a position to give something to help them out. Anybody desiring to contribute to the fund can leave such amount as they wish to at the office of Captain Dickman, in the Arcade, or with Henry Zollinger, at No. 17 East Superior street.

A BIG DRAFT.

Mrs. Emma Lange Receives $10,000.

The Accident Company Pays the Indemnity for Her Husband's Death in the Recent Railroad Wreck.

Today M. J. Blitz received from the Preferred Accident Insurance company, of New York, a draft for Emma Lange in the sum of $10,000, as indemnity for the death of that lady's husband, W. H. Lange, the Fort Wayne traveling man who was killed in the Evansville and Terre Haute railroad wreck a few months ago. The company, upon receiving the affidavits and proofs furnished by Attorney A. E. Thomas, who was retained by Mrs. Lange, paid the claim without a protest. This makes a total of $13,250 received by Mrs. Lange. The Maccabees paid her $2,250 and the railroad company paid her $1,000. She is at present the guest of friends at Lima, Ohio, but will return home tomorrow to receive the big draft.

THE Fort Wayne ball club plays fine enough ball, but somehow doesn't get quite enough runs.

THE Spaniards in Cuba are only true to the cruel traditions of their race in prohibiting Red Cross work in Cuba. Spain has been for centuries a synonym for barbarism.

THE Yerkes telescope has brought the moon near enough to the earth to enable the donor of that instrument to ascertain whether the earth's satellite needs a street railway system.

SIR ROBERT PEEL, who has been numerously jilted by young women in England and America, has found a bride—Miss Graffenried, a German heiress and daughter of a baron. There are always as good fish in the sea as have been taken out of it.

THERE are more queer people in Mexico Mo. than in any town in the state. A man was arrested there for embezzlement the other day and instead of going to jail hired a man to guard him until his trial came up. And he wasn't a member of the sugar trust, either.

MR. PEFFER respectfully asks through the columns of his newspaper, the Topeka Advocate, to be let alone. That's certainly a most modest and reasonable request, though why anybody should want to stir Peffer up when he is willing to keep quiet is a conundrum that will keep the public guessing.

GOVERNOR BUSHNELL, of Ohio, expresses the belief that such crimes as the one for which a negro was lynched in Urbana the other day ought to be classed with murder under the death penalty. He thinks that such a statute would prevent mob violence, which is almost sure to follow such crimes, and in this view he is supported by several judges of the supreme court of Ohio.

THE meeting of citizens at the city hall last evening to perfect the organization of a civic federation, will undoubtedly be productive of very much good. The best citizens of the city will interest themselves and through an organized movement it may be possible to compel a better enforcement of the laws. Hon. S. E. Nicholson deserves much credit for the great work he is doing throughout Indiana in the interest of good citizenship.

THE New York World says: "Mr. Wanamaker is an advocate of high protection. But he tells his party plainly that they would have done better to rest upon the Wilson tariff, adding some revenue features to it, than to keep the country in suspense and uncertainty as they have done. It is an encouraging fact that men like Mr. Wanamaker, men of large affairs, men skilled in the work that gives employment and wages to multitudes, are beginning to protest against that reckless trifling with prosperity in which congress is just now indulging for the sole purpose of rewarding campaign contributors, winning the favor of monopolists and incidentally enriching speculative senators who trade upon their delegated powers."

For the Relief of Labor.

The Standard Oil company, which has recently paid nearly ten million dollars in extra dividends on its capital stock, has closed down its refineries in Cleveland, throwing 1,000 men out of work. This action does not mean that there is to be a reduction of the quantity of oil prepared for the market. It means that processes have been called into use whereby the aggregate quantity of oil needed in this country and for export can be produced and distributed with less manual labor than formerly. Ultimately this change must result in cheaper oil for consumers everywhere as well as increased profits for the Standard Oil company. It should also result in direct benefit to the laboring man by reducing his hours of labor and increasing his wages, and, in the long run, it is bound to have that effect, though unfortunately there is no way whereby it can be made directly and immediately to benefit the laboring man.

Such occurrences as this cannot fail to stimulate the exertions of the labor organizations of the country to secure a universal eight hour day, and if the cheapening of the cost of production and of the expenses of distribution continues much longer at the present rate the demand will need to be for even a shorter day than eight hours if all the laboring forces of the country are to be kept employed. The abolition of trusts is not going to solve this problem, because in some form or other great aggregations of capital will continue to be utilized to reap the increased profits made possible by doing business on a larger scale, and the results will be in the future as in the past a cheapening of the cost of living, while it increases the gains of the big capitalists. A development of trade and industry which makes it possible for the masses to obtain more and more of the necessities of life for a given rate of wages is a boon to the human race, and it can be made a still greater benefit by reducing the average hours of labor, thereby enabling the working man to share directly in the profits arising from the adoption of processes which make every man's labor more effective in producing and distributing the necessities and the luxuries of life.

GREAT FLOODS.

The Connecticut River on the Rampage.

Millions of Feet of Timber Break From the Moorings and are Swept Swiftly Towards the Sea.

BELLOWS FALLS, Vt., June 11.—For the past thirty-six hours the rain fall in this section has been continuous. The Connecticut river has risen several feet and all its small tributaries are badly swollen. The highways are washed out and a boom just north of here, holding 12,000,000 feet of logs belonging to the Vandyke drive, burst this morning and unless the boom at Turners Falls, Mass., holds, a large part of the drive will go toward the sea.

SPRINGFIELD, Mass., June 10.—Special dispatches to the Union from the towns along the Connecticut river, indicate that much damage is being done by flood. The boom at Turners Falls, Mass., broke at 4:30 o'clock this morning. There were about 80,000,000 feet of logs. There is no way of stopping this boom or the one that broke at Bellows Falls, Vt., until they reach Mount Tom, near Northampton. The dam of the Warner Manufacturing company, at Greenfield, broke this morning. It was built of solid rock and was fifty feet long and twelve feet high. A portion of the dam of Eddy & Son also gave way. At Charlemont, Mass., the saw mill dam owned by H. T. Ford went out this morning.

BOARD OF WORKS.

Some of the Improvements Acted Upon at Last Evening's Meeting.

At the meeting of the board of public works last night City Engineer Randall was instructed to prepare plans and specifications for a sewer on Tecumseh street, from the St. Mary's river to the alley north of Elmwood avenue. This is the Lakeside sewer, the construction of which has aroused a great deal of opposition among owners of property which will be affected.

The following assessment rolls were approved:

For a sewer in the alley between Holton avenue and Reed street, from Greene street to the first alley south; sewer in the alley between Reed and Winter street from Pontiac to the alley south of Jennison, and another in the alley south of Jennison, from Winter to Reed; for sidewalks on the west side of Barr street, from Hamilton to Williams; sidewalks on the north side of Superior, from Griffith to Fulton; sidewalks on the north side of Greely, from Fulton to Jackson; grading the alley between Grant avenue and Wabash avenue, from Humphrey to Randall street. The 24th of June was set aside as a date on which to hear remonstrances against the confirmation of the assessments and acceptance of the work on these improvements.

The board approved the bonds of John Auer, A. J. Remmert, W. H. Turpin, Michael Dannehy, Charles Schreck and Anslem Krock for laying sidewalks by private contract.

A petition asking for the construction of a sewer in the alley between Randall street and Maumee avenue, from Grant avenue to Glasgow avenue, was received and the engineer was instructed to prepare the plans and specifications for the same. The clerk was instructed to notify the Jenney Electric Light and Power company to move the street lamp from the Broadway crossing of the P., F. W. & C. to the intersection of Broadway and Wall street, and also to change the lamp at the corner of Union and Wall streets to a point two blocks west.

L. M. Rogers and Dr. L. S. Null have purchased the old canal property within the corporate limits of New Haven, and will sell it out in town lots or in parcels to suit purchasers.

But wasn't it a game for your life.

One of the nicest, cleanest, sharpest games of base ball ever seen in Fort Wayne was played between the Toledo and the local team at Lakeside yesterday. It was full of sensational plays from start to finish, the work of Peck Sharp at second for the locals being of the finest kind. Kelb, for Toledo, was in fine form and held the Colts down to five hits. Munnehan was in it, too, for Fort Wayne, and barring the bunching of hits in the third held the Mud Hens well in hand. And in the third things would have been different but for the fact that what proved to be a Texas leaguer was misjudged by Babb and Cooke. Either one could have taken it in and retired the side. They both yelled "I've got it" at the same time, and as a result both stopped just long enough to let the ball drop between them, and ere the Toledoes were retired three runs were tallied. The game was one to talk about and please. As will be seen by the score below, several changes have been made in the positions of the local team.

OTHER INTER-STATE GAMES.

DAYTON, Ohio, June 11.—The Daytons won a most decisive victory over the Springfields on the home grounds yesterday before a star aggregation of rooters. The visitors scored three scattering runs, but were materially assisted by Shortstop Larett's three errors. Brown did effective work in the box for the Daytons. The score:

Springfield	1	0	0	1	0	0	1	0	0	3

Hits—Springfield, 6; Dayton, 15. Errors—Springfield, 3; Dayton, 3. Batteries—For Dayton, Brown and Greenwald; for Springfield, Cogswell and Schabel.

YOUNGSTOWN, Ohio, June 11.—New Castle made the winning run yesterday with two men out. Graffius, of the visiting team, hit the ball over left field fence, bringing in two runs. The score:

NOTES.

Cooke had two stolen bases.

Goat Fitch played center yesterday.

In the second, a long hit by Babb to right center, which was hauled down by Bobby Gilks, was a fine play.

Robinson clashed with McKevitt at Toledo Wednesday and has a game leg as a result. He will be out of the game for some days.

Sharp's stop of a hot liner and touching a base runner and finishing a double play by throwing the runner out at first was a great play.

If the Toledo base ball editors had seen the playing of Second Baseman Beck in yesterday's game they would no doubt change their opinions somewhat. Beck's all right.

Every player will have an day off.

The following is the batting order for today: Cooke, ss, O'Meara, c; Sharp, 2b, McKevitt, rf, Hagerty, 3b; Babb, lf; Kihm 1b; Fitch, cf; Severs or Herr, p.

There was just about one "knocker" to every hundred spectators at the game yesterday. Just save your knocks until you get home and you will please 99 per cent. of those in attendance better.

Springfield Times: "Rinehart says that Cogswell is the best pitcher in the league today in spite of Hickman, the Vinegan; Keenan, the Mud Hen; Munnehan, the Maroon; Sayers, the Giant, and Ewing, Old Soldier."

Toledo Bee: "George Darby will, if he pitches many games like the one he pitched yesterday, win more of them than he loses. He has good speed, splendid control of difficult and deceptive curves, and, above all, has the ability to change pace successfully. One ball will go through like as if it was geared to 145, and the next will be a slow drop, of which he has unusually good command."

New Castle Courant Guardian: "Fort Wayne has signed Peck Sharp, an old Western league infielder. Sharp is a good man and should strengthen the Hoosiers.—New Castle simply had fun at the expense of Youngstown on Wednesday, winning the game with the greatest of ease. At no time did it look as though the men from Wickedville had the slightest chance, excepting in the first, when an error let them have a run. After that New Castle forged ahead to the extent of eight runs and then out of pity the team from across the line were permitted to score again."

Con Strouthers is quoted by the Wheeling Intelligencer as having thus patted himself on the back with reference to the securing of Arlie Latham for the Mansfield team. "Latham's the best drawing card in the Inter-State league, and every other manager ought to feel glad that we have him, for he undoubtedly draws the people. Our second day crowds are always bigger than the first and the third an improvement over the second. And the cause is the injection of Latham the league has received. Arlie is the same old frisky clown in the lines and it takes a good one to get away with him. But the bleachers never feel sore; they enjoy receiving the hard knocks the 'old hoss' administers to them."

Professor Hinton's base ball pitching gun was a decided success yesterday at Princeton. Eight strike outs, one base on balls, one wild pitch and four safe hits is the record in three innings yesterday in the first fair test of the machine's practicability in an actual game. The gun is discharged by the batsman, who, when ready for the ball to be delivered, steps upon an electrical intercepting plate, connected by wires with which the ball is thrown is regulated by compressed air, and pronglike projectors from the cannon's mouth impart a rotary motion to the sphere when discharged, producing a curve in any direction, according as the position of the projecting prongs is changed. There is but one serious defect in the operation of the machine that will prevent its use in games, and that is the long time required for reloading.

Mansfield News: "The News has no trip hammer nor even a tack hammer for kocking purposes, but we would really like to see Cooper pawing the earth, worrying the pitcher and making runs as he did last year; Steen keeping his batting average above the 300 per cent. mark; Musser knocking something more substantial than pop flies; Rickert ceasing his attempt to make home runs and landing safe oftener; Royce connecting more frequently and doing a little more of his 'accidental hitting' and coaching harder; Brown being able to run 100 yards in twenty seconds; Berry improving at bat; Brodie playing in old time luck; Zinram throwing like Sockalexis and keeping his average above 200; Jordan feeling like a fighting cock and playing as the Sharonites know Jordan can play. Finally we would like to see Scheible do something—any old thing—that would furnish excuse for an anti-horse laugh or stirring applause. We would like to see just one more game in which the Giants start in with an air of supremacy, and maintain that proud manner to the end. Youngstown News. Hey! You! Wake up! Did anybody ever whisper to you that the Inter-State league is faster this year than ever before? What you want to do is to get eleven men that can play ball."

RINEHART AND MARTIN FIGHT.

Manager Rinehart, of Springfield, and Martin, a pitcher who has just been released, came to blows over a settlement on account of fines during which Cogswell, Whittridge and Williams chipped in, and it resulted yesterday in Williams asking and receiving his release. He immediately signed with Manager Hutchins, of the Mariettas. Several of the Governors claim they will resign if Rinehart is not dismissed. Rinehart has signed Schabel, late of the Virginia State league, as catcher, and Grant, of New Jersey, as pitcher.

CIVIC FEDERATION.

Hon. S. E. Nicholson's Address at the City Hall

Will Result in the Organization of a Branch of the Good Citizenship League—Committee Appointed.

There was a large attendance at the city hall last evening to hear Hon. S. E. Nicholson, president of the Indiana Good Citizenship league, speak on the subject, "Good Citizenship." Mayor Scherer was not present to preside and the meeting was called to order by Rev. J. S. Ainslie, and Rev. P. J. Rice offered prayer. Mr. Nicholson was introduced and proceeded to a thorough discussion of his subject, dwelling on the good work to be accomplished by the organization of Good Citizenship leagues. He was frequently applauded during the address and was congratulated at the close. The meeting then took up the question of organizing a local branch of the state organization, to be known as a civic federation. It was decided to organize and a provisional committee, consisting of W. E. Clapham, J. D. Williams, Paul E. Mossman, Alexander Johnson, I. N. Medsker and Fred Antrup, was appointed to designate a committee of twenty, who will elect officers. The constitution and by-laws provided by the state organization were adopted, as follows:

CONSTITUTION.

ARTICLE I.—NAME.

This organization shall be known as the "Civic Federation" of Fort Wayne, Indiana.

ARTICLE II.—OBJECT.

This Federation shall stand for good citizenship, the enforcement of law, the promotion of sobriety, the correction of injustice, and will co-operate with all officers and constituted authorities in a faithful administration of the public service. It will, also, seek to advance all moral and civic movements which it may deem to be of large importance.

ARTICLE III.—MEMBERSHIP.

All persons in sympathy with the objects of this federation and purposing to co-operate with it may become members by signing the constitution, and contributing to its treasury. (2) And any church club or other organization in sympathy with the objects of the federation is invited to send a delegate member.

ARTICLE IV.—MANAGEMENT.

The management of the federation shall be vested in a board of managers, who shall be elected at the annual meeting, ten of whom shall be from the subscription membership and ten from the delegate membership.

The president, vice president, secretary and treasurer of the federation shall be ex-officio president, vice president, secretary and treasurer of the board of managers.

ARTICLE V.—OFFICERS.

The officers of the federation shall be chosen by the board of managers and these officers shall be a president, a vice president, a secretary and a treasurer, and their duties shall be such as pertain to these several offices.

ARTICLE VI.—AMENDMENTS.

This constitution may be amended at any regular or special meeting of the federation by a two-thirds vote of the members present; provided, the amendment shall have been previously approved by the board of managers.

BY-LAWS.

ARTICLE I.

is far ahead of any blood remedy on the market, for it does so much more. Besides removing impurities, and toning up the run-down system, it cures any blood disease, it matters not how deep-seated or obstinate, which other so-called blood remedies fail to reach. It is a real blood remedy for real blood diseases.

Mr. Asa Smith, of Greencastle, Ind., writes: "I had such a bad case of Sciatic Rheumatism that I became absolutely helpless—unable to take my food or handle myself in any way. I took many patent medicines, but they did not reach my trouble. One dozen bottles of S. S. S. cured me sound and well, and I now weigh 170."

YOUR CAR, PET!

Don't always ask your friend how his health is. It sometimes makes him tired. For a change ask him how his CARPETS are. Ask him where he got them. If he bought them from US well and good. They're all right. Congratulate him and ask no further questions. If he bought them elsewhere don't roast him, (it's just possible they may be good,) but speak to him calmly and try to persuade him that the Indiana Furniture Co., Carpets could not be poor, or even doubtful. WOMEN! DON'T WAIT.

If You Have Any of These Symptoms Act at Once.

Do you know the reason why you will go to the hospital, my poor friend?

Because you have allowed yourself to go from bad to worse. You did not know that that heat, swelling and tenderness in your left side were all signs of congestion of the ovary.

Any intelligent woman could have told you that congestion is fatal to the uterine system, and that an ovary congested leads to tumor formation, and that you were in awful danger. Now you will have to undergo the operation of ovariotomy, the cutting out of the ovary.

Yes, you will recover, at least I hope you will; but you will never be quite the same woman again. Congestion of the ovaries is fatal to health. If you have any such symptoms be advised in time; take a medicine of specific powers! You can find none better than Lydia E. Pinkham's Vegetable Compound, prepared especially to meet the needs of woman's sexual system. You can get it at any good druggist's.

Following we publish a letter from a woman in Milwaukee, which relates how she was cured of ovarian trouble: "Dear Mrs. Pinkham:—I suffered with congestion of the ovaries and inflammation of the womb. I had been troubled with suppressed and painful menstruation from a girl. The doctors told me the ovaries would have to be removed. I took treatment two years to escape an operation, but still remained in miserable health in both body and mind, expecting to part with my reason each coming month. After using one bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash I was very much relieved. I continued to use your remedies until cured. The last nine months have been passed in perfect good health. This, I know, I owe entirely to the Vegetable Compound. My gratitude is great, indeed, to the one to whom so many women owe their health and happiness."—MRS. F. M. KNAPP, 563 Wentworth Ave., Milwaukee, Wis.

SHOP AND RAIL.

Frank Huger, an Old Railroader, Dies Suddenly.

The Shopmen Preparing for Their Annual Excursion—Accidents and Incidents of the Day.

Col. Frank Huger, superintendent of transportation of the Norfolk and Western railway, died suddenly at his home in Roanoke, Va., last night from a stroke of apoplexy. Colonel Huger was one of the oldest officers of the road. He served with distinction as colonel in the Confederacy during the late war. He was sixty years of age.

SHOPMEN'S EXCURSION.

The railway officials at Pittsburg have approved of the date, June 19, selected for the annual excursion and picnic of the Pennsylvania shopmen and the event will come off at that time. Messrs. O. E. Bradway, J. H. Fry, J. A. Graham and Enoch Cox, who are members of the committee on grounds, and T. J. Rodabaugh, the president, went to Rome City this afternoon to look over the grounds and arrange for the field and aquatic sports. Tonight a band will be selected from the three applications now in the hands of the committee, and some time next week a printed program of the day's exercises will be issued. The officials have ordered forty coaches sent here for the occasion.

Chicago business men are displeased that the Wabash sends its business from central Illinois to Toledo instead of to Chicago, and gives rates which draw the business to Toledo and discriminates against Chicago.

I. H. Burgoon, general manager of the Ohio Southern railway, has resigned and N. E. Matthews, one of the receivers, was appointed in his place. The headquarters will be removed from Springfield to Lima, Ohio.

G. M. Sauer, the well known Nickel Plate conductor, is confined to his home with a broken metatarsal in the right foot. The accident was due to a fall from the rear steps of his caboose last Monday night, near Knox, Ind.

While on his run Wednesday night Engineer Wash Frase had one of his eyes painfully injured. Something struck and shattered his cab window and a piece of the glass lodged in the optic. There is no danger of losing the sight.

It is stated that W. H. Van Tassel, ex-chief of police of Springfield, Ohio, is to be appointed superintendent of the Ohio Southern road. Mr. Van Tassel was for some years train dispatcher on the Indiana, Bloomington and Western.

Those best acquainted with the situation predict that the taking of the Columbus and Hocking Valley road out of the hands of a receiver is many months distant. When the receiver was appointed sixty days was the time fixed. The interest due June 1 on the first mortgage bonds was not paid, which still further complicates matters.

WHERE MINES GROW.

Of late years silver production has outstripped gold. A different condition of affairs exists in the now renowned Kootenai country. While silver predominates in some localities there, yet the streams have placer gold in paying quantities, and at Rossland, in the Trail district, gold is king. Copper and iron are found and coal also, at some places.

The recent development of this region and of that contiguous thereto in Washington, has been phenomenal. Mines of exceeding richness, from the grass roots down, have been opened all over the mountains; railroads have been built into and through the country; steamboat lines on the lakes and rivers have been increased and expanded, and towns sprung up as if by magic.

The country is good for rich or poor, the climate is mild and bracing, and the scenery grand beyond description.

Among the prominent mining camps are Rossland, Nelson, Ainsworth, Kaslo, Slocan, Salmon River, Cariboo and Deer Park.

The mountains are well timbered, rendering fuel cheap, and living expenses are reasonable.

Smelters are located at several points contiguous to the mines.

The year 1896 witnessed a wonderful emigration to the Kootenai country, and it will be eclipsed by the record of 1897.

The direct route to this land of gold, from the east, is via the Northern Pacific railway to Spokane, Wash., and Spokane Falls and Northern railway from that point north.

West of the Rossland region lies the Boundary Creek country—practically a continuation of the former—of very rich promise but as yet of meagre development. South of the Boundary line, in Washington, is the "Reservation" country, a land also of promise.

A full description of the Kootenai region can be obtained by sending to Chas. S. Fee, Gen. Pass. Agent, N. P. Ry., St. Paul, Minn., for their new Kootenai Folder and elaborate relief map. This is the best map published of the Kootenai. m20-tf

SAM, PETE & MAX.

It Was A Great Success.

All that we desired was accomplished in our great Dissolution sale. The prices on everything were placed so low that the money required to pay off the retiring partner was secured, and the great quantities of goods sold gave us the much needed room for one of the finest Clothing stocks ever shown here. We start out now with an enormous lot of fine, new, stylish Clothing bought from the manufacturers for "spot cash," which gave us the advantage of every possible discount as cash always does. This advantage is for you, not for us. We are always satisfied with a reasonable profit and anything we can save outside of that we cut off of the selling price and the buyer get the benefit. Here are some benefits for you:

ESTABLISHED 1833. FRIDAY, JUNE 11, 1897. PRICE TWO CENTS.

The frontispiece of "Fashions" for June is a strikingly artistic page, showing a stylish riding habit and a practical as well as beautiful mountain costume. The gowns pictured throughout the number are all especially commendable, and include a Redfern yachting costume, commencement dresses, a tennis suit, various kinds of capes and fluffy dresses of summer goods for all sorts of occasions.

Mrs. Julia Ward Howe contributes the opening article which is accompanied by a fine recent portrait of the author. A brief description of the new Congressional Library and latest news on the women's work at the Tennessee Centennial are of interest. Students of Flower lore will be delighted with Isabel Worrell Ball's dainty study of "The Flower of June," while every true woman will heartily endorse the sentiment in Florence Howe Hall's treatment of the subject "Courtesy to Our Social Inferiors."

"The Kissing of the Waters" is a charming story of Southern life by Jeannette H. Walworth; and "What Was in a Name," a clever skit by Alice Wellington Rollins.

Large space is devoted to articles on [illegible] summer [illegible] and [illegible]. "The Etiquette of Weddings" will settle many a vexed question. Embroidery is seasonable all the year round, and these Colonial designs are given to tempt deft fingers to copy them in the leisure hours of summer. The latest novelties in millinery, shoes, parasols, pocket-books, belt buckles, etc., are described, and nothing has been neglected to give "Fashions" readers thoroughly up-to-date information on all matters of feminine adornment.

A BIG STORM.

Several Washouts, a $25,000 Fire and Minor Losses.

A Cloud Burst on Pike's Peak Stops Railway Traffic—One Man Killed and others Injured.

DENVER, Colo., June 11.—Four railway washouts, a $25,000 fire and a host of minor losses epitomize the evil results of the storm which prevailed in Denver and the southeastern section of the state generally from near 7 o'clock last evening until a little after midnight. A cloud burst on the slope of Pike's peak shut off traffic on the Rio Grande and Midland lines between Manitou and Colorado Springs. Sixteen miles out of Denver the Julesburg tracks were washed out in spots for miles in length, leaving the 10:30 o'clock Union Pacific train for Chicago stalled at the Union depot. The washout on the Burlington and Missouri River railroad occurred near Barr station, and the 9:50 train over that line for the east was not able to leave Denver until this morning. Men were at work all night repairing the damage done by the storm. According to the weather bureau report, 83-100 of an inch of rain fell in Denver between 6:40 and 10:10 o'clock. From the time the storm reached its height travel ceased upon the street car lines, which were either inoperative altogether or gave but poor service. Many parts of the city were flooded to a depth of several feet, a number of families having abandoned their homes. It is feared that ranchmen living in low lands to the east of this point have lost heavily in stock and buildings by the night's floods. The storm was general all over northwestern Colorado.

ONE KILLED AND MANY INJURED.

LYLE, Minn., June 11.—So far as known this morning Henry Hanson was the only man killed by last night's tornado. There are ten injured, none of them so badly that further deaths are possible. They are as follows:

Peter Hanson, broken leg and arm, otherwise badly bruised.

Mrs. Peter Hanson, serious contusions.

Robert, son of Peter Hanson, head injured.

Charles Larson, wife and child; Mrs. Stipe, Christian Peterson, Maude Peterson, Peter Peterson, Charles Severson, Mrs. W. A. Frazer, Mrs. M. L. Hughson, William Brooks and wife.

CRAVEN-FAIR.

Unexpected Turn in the Celebrated Will Case.

The Heirs and Executors Call Mrs. Craven to the Stand and Will Try to Prove Conspiracy.

SAN FRANCISCO, June 11.—The Craven-Fair case has taken an unexpected turn. The attorneys for the heirs and executors have called Mrs. Craven to the stand and secured from her the admission that in 1895 she had taken the disputed deeds to Sacramento and there shown them to two men named Cullen and Bonner.

Then she was asked the significant question by Attorney Wheeler:

"Now, Mrs. Craven, have you ever entered into an agreement or contract whereby Mr. Cullen is to be given directly or indirectly a contingent interest in the property in dispute in the event that you win this case?"

Attorney Delmas objected. "I expect to prove in part by this witness," replied Wheeler, "an organized conspiracy in which, by means of forged documents and perjured testimony the Fair estate was to be looted."

"Proceed," said Delmas, but adjournment of court cut further questions off temporarily.

THE BAKERS' STRIKE.

The Employers Settle With the Union Men.

L. P. Scherer, Michael Wehrle and Mennewisch & Baumgart have signed an agreement with the Trades and Labor council to put their men back to work and recognize the Journeymen Bakers' union scale.

This morning the bread of these three bakeries appeared with the union label of the Journeymen Bakers' and Confectioners' International Union of America, evidence so long as the strike lasts that bread is made by a union bakery.

The bakery conducted by the strikers will continue in operation until all the bakers have signed an agreement.

The return to work of a part of the men on a strike by the settlement with the three firms named above, will necessitate the rearrangement of the working force at the bakery conducted by the strikers.

Two of these firms controlled, it is said, previous to the strike, nine-tenths of the wholesale trade of the city, and this will, as a natural consequence, mostly return to them.

The strikers claim they will now attempt to control the retail trade of the bosses who have not yet signed.

HUNTING HIS BROTHERS.

Believes They Have Been Scalped by the Indians.

LOS ANGELES, Cal., June 11.—S. J. Dorland, of Akron, N. Y., is in Los Angeles on his way to the desert to hunt for his brothers, Pete and Ben, whom he believes to have been scalped by Indians. Dorland is undoubtedly the victim of a cruel practical joke. He received a letter signed by H. E. Moran, declaring that both Pete and Ben Dorland had been massacred by Indians. Today Mr. Dorland will go to Thompson, a station in the desert, from where the letter was received, to try to find some trace of the young men.

GORDY HANGED.

He Made a Statement on the Scaffold.

Asserts His Innocence to the Very Last—His Principal Grievance Was Against the Newspapers.

GEORGETOWN, Ind., June 11.—James M. Gordy was hanged at 10:24 o'clock this morning for the murder of his wife. He died game and protested his innocence to the last.

Gordy made a statement on the scaffold. He reviewed at length the evidence on which he had been convicted, pointing out what he considered the inconsistencies therein, suggesting connivance of his sister in law with the detectives to secure his conviction. His greatest grievance, however, was against the newspapers. In this connection he said: "In regard to the newspapers, I'm sorry people believe all they say. They are the greatest falsifiers that I ever heard of and are largely responsible for people thinking so ill of me today. I thank God though that the day will come when newspaper men will have to give an account for their deed done in the body. It don't hurt my soul what you say about my body. In spite of all I can still put my trust in the Lord, who will never leave or forsake me. He is greater than man."

After a long and somewhat rambling statement of his religious hopes and beliefs, he concluded: "For the sheriff, his assistants, the minister, my counsel and all others concerned, I have only kind words to speak. They, I believe, have done what they could for me. To all I say good bye. You believe I'm guilty. God and I know I am not. I believe I'm going to Heaven. I do hope you who hear and those that read my statement will ultimately enter the rest that remains for the people of God. Farewell."

The crime for which Gordy was hung was the murder of a woman whom he had married in New York only about two weeks before. Gordy was a widower and there was a strong suspicion that his first wife had been murdered. In December, 1895, the body of a woman was found floating in the river near Georgetown with the skull crushed in. Investigation proved that Gordy had been seen with her near the river shortly before the body was found and further search proved that he had clandestinely married her in New York about two weeks before. Other damaging evidence was found, including a hammer with hair and blood stains on it in Gordy's barn. It was on circumstantial evidence that he was hung. Public feeling ran high against him during his trial and there was much talk of mob violence, but this did not mature.

The board will be thanked by many citizens for the action just taken. The park officers are empowered by the mayor to arrest all offenders.

COURT NEWS.

Sunday Base Ball Cases Have Not Been Tried.

Owing to the Illness of Justice Taney—Coroner Returns Verdicts—Court Notes of Interest.

The affidavits against the Fort Wayne ball players for playing on Sunday, May 30, have not been served owing to the illness of 'Squire Taney, who is confined to his home. The warrants are in the hands of a constable and as soon as Mr. Taney is able to be in his office the players will be brought in for trial.

CORONER'S VERDICTS.

Coroner Kappel yesterday returned his verdicts in the Lakeside accident cases. The evidence of the inquest was attached to the verdicts in typewritten form and covered 141 pages.

The verdicts blame no one for the accident and simply give the cause of the death. The verdict in the case of Alexander Brown states that he came to his death by reason of internal injuries received by the sudden accidental caving in of a waterworks trench upon him, causing instant death, said trench being on St. Joe boulevard in the city of Fort Wayne.

The decisions in the cases of Albert Dennis and James Christie were the same. That of the case of Patrick Sheehey was the same with the exception that Sheehey was injured in the accident and died three hours later.

The Three-Cent Car Fare is Entirely Legal.

Such is the Supreme Court's Decision Rendered in the Case of the Citizens' Street Car Company.

INDIANAPOLIS, Ind., June 11.—The supreme court of Indiana today decided that the three cent street car fare law is constitutional. It relates to Indianapolis only. In the federal court recently the same law, passed by the last legislature, was declared unconstitutional and injunctions were granted by Judge Showalter against its enforcement. The state will insist on three cent fares unless the street car company secures an injunction pending an appeal to the federal supreme court.

NIPPED AGAIN.

J. T. Friend, Once Notorious in This City, Arrested.

Friend represented a burglar alarm company and sold a man territory in Pennsylvania for $1,500. The buyer now claims that he was swindled. Friend will be taken to Wilkesbarre for trial.

Although Friend's residence has been in this city he seldom came home. After his trouble in the courts here he went to Ohio but his wife remained here, residing at 248 St. Mary's avenue. In the Buckeye state it is said he was arrested and sent to the penitentiary for crooked work and only recently completed his term. HORSES GO WILD.

Two Exciting Runaways on South Calhoun Street.

Several Vehicles Wrecked, Pedestrians and Drivers Luckily Escape—A Small Boy's Mishap.

There was a runaway near the south depot last evening which good luck alone prevented being of a very serious nature. Will Spencer, driver of one of the Fort Wayne laundry wagons, was driving along Baker street when the king bolt dropped from his wagon and frightened the horse, which started on a run away. The top was turned completely from the vehicle before the horse turned south on Calhoun street with the wheels dragging behind him. George Sherry, a thirteen year old lad, was sitting in a buggy in front of the Harmon house and attempted to get out when he saw the approaching runaway, but was not quick enough. The wheels of the laundry wagon struck the buggy and young Sherry was thrown to the pavement. He held to the lines and was picked up by by-standers. He was bruised about the limbs and badly frightened, but the injuries were not serious. Across the railroad the wagon struck a telephone pole and the rear wheels were torn off. The horse was tired when it reached Dawson street and was easily stopped. Will Spencer was not hurt.

ANOTHER ONE.

The second runaway also occurred on the south side, starting in front of a house on Allen street. A horse belonging to Charles Dentz, the south side meat dealer, was left standing while the driver went into the yard to deliver meat. A ball thrown by a youngster in a field near by struck the animal, which became frightened and ran north on Calhoun street at a gallop. Several vehicles were struck along the route of the runaway but all of them fared pretty well until Zoeller & Merz's grocery was reached. Here the firm's delivery wagon was struck and a general wreck of both wagons resulted. Further disaster and possible injury was prevented by prompt action of pedestrians, who caught both horses.

OTHER ACCIDENTS.

A four year old lad named Willie Maiers swallowed moth balls yesterday, thinking that they were candy. He was taken to the office of Dr. Ranke, who administered an emetic and saved the little fellow's life.

Several lady riders and their escorts turned the corner of Wayne street and Glasgow avenue at a lively speed last evening and the result was a bad mix-up. Several wheels were damaged so badly as to be unfit for use.

NEED FUNDS.

Fifty Dollars Needed by the U. V. U. to Defray the Monument Expenses.

The patriotic inclined citizens are requested to interest themselves to the extent of a small donation to defray the balance of expenses incurred by the placing of cannon and shells at the north side monument. There remains an indebtedness of about $50. The Union Veteran Legion has pledged itself to pay this and the members ask the kind consideration of persons who are in a position to give something to help them out. Anybody desiring to contribute to the fund can leave such amount as they wish to at the office of Captain Dickman, in the Arcade, or with Henry Zollinger, at No. 17 East Superior street.

A BIG DRAFT.

Mrs. Emma Lange Receives $10,000.

The Accident Company Pays the Indemnity for Her Husband's Death in the Recent Railroad Wreck.

Today M. J. Blitz received from the Preferred Accident Insurance company, of New York, a draft for Emma Lange in the sum of $10,000, as indemnity for the death of that lady's husband, W. H. Lange, the Fort Wayne traveling man who was killed in the Evansville and Terre Haute railroad wreck a few months ago. The company, upon receiving the affidavits and proofs furnished by Attorney A. E. Thomas, who was retained by Mrs. Lange, paid the claim without a protest. This makes a total of $13,250 received by Mrs. Lange. The Maccabees paid her $2,250 and the railroad company paid her $1,000. She is at present the guest of friends at Lima, Ohio, but will return home tomorrow to receive the big draft.

THE Fort Wayne ball club plays fine enough ball, but somehow doesn't get quite enough runs.

THE Spaniards in Cuba are only true to the cruel traditions of their race in prohibiting Red Cross work in Cuba. Spain has been for centuries a synonym for barbarism.

THE Yerkes telescope has brought the moon near enough to the earth to enable the donors of that instrument to ascertain whether the earth's satellite needs a street railway system.

SIR ROBERT PEEL, who has been numerously jilted by young women in England and America, has found a bride—Miss Graffenried, a German heiress and daughter of a baron. There are always as good fish in the sea as have been taken out of it.

THERE are more queer people in Mexico, Mo., than in any town in the state. A man was arrested there for embezzlement the other day and instead of going to jail hired a man to guard him until his trial came up. And he wasn't a member of the sugar trust, either.

MR. PIERCE respectfully asks, through the columns of his newspaper, the Locke Advocate, to be let alone. This is certainly a most modest and reasonable request, though why any one should want to stir Pierce up when he is willing to keep quiet is a conundrum that will keep the public guessing.

GOVERNOR BUSHNELL, of Ohio, expresses the belief that such crimes as the one for which a negro was lynched in Urbana the other day ought to be classed with murder under the death penalty. He thinks that such a statute would prevent mob violence, which is almost sure to follow such crimes, and in this view he is supported by several judges of the supreme court of Ohio.

THE meeting of citizens at the city hall last evening to perfect the organization of a civic federation, will undoubtedly be productive of very much good. The best citizens of the city will interest themselves and through an organized movement it may be possible to compel a better enforcement of the laws. Hon. S. E. Nicholson deserves much credit for the great work he is doing throughout Indiana in the interest of good citizenship.

THE New York World says: "Mr. Wanamaker is an advocate of high protection. But he tells his party plainly that they would have done better to rest upon the Wilson tariff, adding some revenue features to it, than to keep the country in suspense and uncertainty as they have done. It is an encouraging fact that men like Mr. Wanamaker, men of large affairs, men skilled in the work that gives employment and wages to multitudes, are beginning to protest against that reckless trifling with prosperity in which congress is just now indulging for the sole purpose of rewarding campaign contributors, winning the favor of monopolists and incidentally enriching speculative senators who trade upon their delegated powers."

For the Relief of Labor.

The Standard Oil company, which has recently paid nearly ten million dollars in extra dividends on its capital stock, has closed down its refineries in Cleveland, throwing 1,000 men out of work. This action does not mean that there is to be a reduction of the quantity of oil prepared for the market. It means that processes have been called into use whereby the aggregate quantity of oil needed in this country and for export can be produced and distributed with less manual labor than formerly. Ultimately this change must result in cheaper oil for consumers everywhere as well as increased profits for the Standard Oil company. It should also result in direct benefit to the laboring man by reducing his hours of labor and increasing his wages, and, in the long run, it is bound to have that effect, though unfortunately there is no way whereby it can be made directly and immediately to benefit the laboring man.

Such occurrences as this cannot fail to stimulate the exertions of the labor organizations of the country to secure a universal eight hour day, and if the cheapening of the cost of production and of the expenses of distribution continues much longer at the present rate the demand will need to be for even a shorter day than eight hours if all the laboring forces of the country are to be kept employed. The abolition of trusts is not going to solve this problem, because in some form or other great aggregations of capital will continue to be utilized to reap the increased profits made possible by doing business on a larger scale, and the results will be in the future as in the past a cheapening of the cost of living, while it increases the gains of the big capitalists. A development of trade and industry which makes it possible for the masses to obtain more and more of the necessities of life for a given rate of wages is a boon to the human race, and it can be made a still greater benefit by reducing the average hours of labor, thereby enabling the working man to share directly in the profits arising from the adoption of processes which make every man's labor more effective in producing and distributing the necessities and the luxuries of life.

GREAT FLOODS.

The Connecticut River on the Rampage.

Millions of Feet of Timber Break Loose—[illegible] Towards the Sea.

BELLOWS FALLS, Vt., June 11.—For the past thirty-six hours the rain fall in this section has been continuous. The Connecticut river has risen several feet and all its small tributaries are badly swollen. The highways are washed out and a boom just north of here, holding 2,000,000 feet of logs belonging to the Vandyke drive, burst this morning and unless the boom at Turners Falls, Mass., holds, a large part of the drive will go toward the sea.

SPRINGFIELD, Mass., June 11.—Special dispatches to the Union from the towns along the Connecticut river, indicate that much damage is being done by flood. The boom at Turners Falls, Mass., broke at 4:30 o'clock this morning. There were about 80,000,000 feet of logs. There is no way of stopping this boom or the one that broke at Bellows Falls, Vt., until they reach Mount Tom, near Northampton. The dam of the Warner Manufacturing company, at Greenfield broke this morning. It was built of solid rock and was fifty feet long and twelve feet high. A portion of the dam of Eddy & Son also gave way. At Charlemont, Mass., the saw mill dam owned by R. T. Ford went out this morning.

BOARD OF WORKS.

Some of the Improvements Acted Upon at Last Evening's Meeting.

At the meeting of the board of public works last night City Engineer Randall was instructed to prepare plans and specifications for a sewer on Townsend street, from the St. Mary's river to the alley north of Elmwood avenue. This is the Lakeside sewer, the construction of which has aroused a great deal of opposition among owners of property which will be affected.

The following assessment rolls were approved:

For a sewer in the alley between Holton avenue and Reed street, from Greene street to the first alley south; sewer in the alley between Reed and Winter street from Pontiac to the alley south of Jennison, and another in the alley south of Jennison from Winter to Reed; for sidewalks on the west side of Barr street, from Hamilton to Williams; sidewalks on the north side of Superior, from Griffith to Fulton; sidewalks on the north side of Cassady, from Fulton to Jackson; grading the alley between Grant avenue and Wabash avenue, from Humphrey to Randall street. The 24th of June was set aside as a date on which to hear remonstrances against the confirmation of the assessments and acceptance of the work on these improvements.

The board approved the bonds of John Auer, A. J. Remmert, W. H. Turpen, Michael Dannehy, Charles Schrock and Anslem Kreck for laying sidewalks by private contract.

A petition asking for the construction of a sewer in the alley between Randall street and Maumee avenue, from Grant avenue to Glasgow avenue, was received and the engineer was instructed to prepare the plans and specifications for the same. The clerk was instructed to notify the Jenney Electric Light and Power company to move the street lamp from the Broadway crossing of the P., F. W. & C. to the intersection of Broadway and Wall street, and also to change the lamp at the corner of Union and Wall streets to a point two blocks west.

I. M. Rogers and Dr. L. S. Null have purchased the old canal property within the corporate limits of New Haven, and will sell it out in town lots or in parcels to suit purchasers.

But wasn't it a game for your life.

One of the prettiest, cleanest, sharpest games of base ball ever seen in Fort Wayne was played between the Toledo and the local team at Lakeside yesterday. It was full of sensational plays from start to finish, the work of Peck Sharp at second and the box work of the finest kind. Kolb, for Toledo, was in fine form and held the Colts down to five hits. Monahan was in it, too, for Fort Wayne, and barring the bunching of hits in the third held the Mud Hens well in hand. And in the third things would have been different but for the fact that what proved to be a Texas leaguer was misjudged by Gibb and Cooke. Either one could have taken it in and retired the side. They both yelled "I've got it" at the same time, and as a result both stopped just long enough to let the ball drop between them, and ere the Toledos were retired three runs were tallied. The game was one to talk about and please. As will be seen by the score below, several changes have been made in the positions of the local team.

OTHER INTER-STATE GAMES.

DAYTON, Ohio, June 11.—The Daytons won a most decisive victory over the Springfields on the home grounds yesterday before a star aggregation of rooters. The visitors scored three scattering runs, but were materially assisted by Shortstop Lovett's three errors. Brown did effective work in the box for the Daytons. The score:

Dayton ... 0 0 0 3 5 0 1 1 2—12
Springfield ... 1 0 0 1 0 0 1 0 0— 3

Hits—Springfield, 6; Dayton, 15. Errors—Springfield, 3; Dayton, 2. Batteries—For Dayton, Brown and Greenwald; for Springfield, Cogswell and Schabel.

YOUNGSTOWN, Ohio, June 11.—New Castle made the winning run yesterday with two men out. Graffius, of the visiting team, hit the ball over left field fence, bringing in two runs. The score:

New Castle ... 0 0 0 3 0 0 0 0 1— 4
Youngstown ... 0 0 0 0 0 0 0 2 1— 3

Base Hits—New Castle, 4; Youngstown, 6. Errors—New Castle, 8; Youngstown, 2. Batteries—For New Castle, Smith and Graffius; for Youngstown, Kimble and Zinram.

MANSFIELD, Ohio, June 11.—Mansfield won yesterday's game from Wheeling through good all-round work. The stick work and base running of the home team were particularly fine. The score:

Mansfield ... 0 1 1 3 0 2 4 1 2—14
Wheeling ... 0 2 1 0 2 0 1 0 0— 6

Base hits—Wheeling, 12; Mansfield, 15. Errors—Wheeling, 7; Mansfield, 4. Batteries—For Wheeling, Easton, Barnett and Taft; for Mansfield, Beadle and Lynch.

NOTES.

Cooke had two stolen bases.

Gus Fitch played center yesterday.

In the second, a long hit by Gibb to right center, which was hauled down by Bobby Gilks, was a fine play.

Robinson clashed with McKevitt at Toledo Wednesday and has a game leg as a result. He will be out of the game for some time.

Sharp's stop of a low liner and touching a base-runner, and finishing a double play by throwing the runner out at first was a great play.

If the Toledo base ball rooters had seen the playing of Second Baseman Beck in yesterday's game they would no doubt change their opinions somewhat. Beck's all right. Every player will have an day off.

The following is the batting order for today: Cooke, ss; O'Meara, c; Sharp, 2b; McKevitt, rf; Hagerty, 3b; Gibb, lf; Kuhn, 1b; Fitch, cf; Sowers or Herr, p.

There was just about one "knocker" to every hundred spectators at the game yesterday. Just save your knocks until you get home and you will please 99 per cent. of those in attendance better.

Springfield Times: "Rinehart says that Cogswell is the best pitcher in the league today in spite of Hickman, the Yankee; Keenan, the Mud Hen; Monahan, the Moon; Sayers, the Giant, and Emig, Gill's Soldier."

Toledo Bee: "George Darby will, if he pitches many games like the one he pitched yesterday, win more of them than he loses. He has good speed, splendid control of difficult and deceptive curves, and, above all, has the ability to change pace successfully. One ball will go through like as if it was geared to 145, and the next will be a slow drop, of which he has unusually good command."

New Castle Courant Guardian: "Fort Wayne has signed Peck Sharp, an old Western league infielder. Sharp is a good man and should strengthen the Hoosiers.—New Castle simply had fun at the expense of Youngstown on Wednesday, winning the game with the greatest of ease. At no time did it look as though the men from Wickelville had the slightest chance, excepting in the first, when an error let them have a run. After that New Castle forged ahead to the extent of eight runs and then out of pity the team from across the line were permitted to score again."

Con Strouthers is quoted by the Wheeling Intelligencer as having thus patted himself on the back with reference to the securing of Arlie Latham for the Mansfield team. "Latham's the best drawing card in the Inter-State league, and every other manager ought to feel glad that we have him, for he undoubtedly draws the people. Our second day crowds are always larger than the first and the third an improvement over the second. And the cause is the injection of Latham the league has received. Arlie is the same old funny clown in the lines and it takes a good one to get away with him. But the bleachers never feel sore, they enjoy receiving the hard knocks the 'old boss' administers to them."

Professor Hinton's base ball pitching gun was a decided success yesterday at Princeton. Eight strike outs, one base on balls, one wild pitch and four safe hits is the record in three innings yesterday in the first fair test of the machine's practicability in an actual game. The gun is discharged by the batsman, who, when ready for the ball to be delivered, steps upon an electrical intercepting plate, connected by wires with which the ball is thrown is regulated by compressed air, and pronglike projectors from the cannon's mouth impart a rotary motion to the sphere when discharged, producing a curve in any direction, according as the position of the projecting prongs is changed. There is but one serious defect in the operation of the machine that will prevent its use in games, and that is the long time required for reloading.

Mansfield News: "The News has no trap hammer nor even a tack hammer for knocking purposes, but we would really like to see Cooper pawing the earth, worrying the pitcher and making runs as he did last year; Steen keeping his batting average above the 300 per cent. mark; Mauer knocking something more substantial than pop flies; Reckert ceasing his attempt to make home runs and landing safe oftener; Keyes connecting more frequently and doing a little more of his 'accidental hitting' and coaching harder; Brown being able to run 100 yards in twenty seconds; Berry improving at bat; Brodie playing in old time luck; Zearau throwing like Sockalexis and keeping his average above 200; Jordan feeling like a fighting cock and playing as the Sharonites know Jordan can play. Finally we would like to see Schelble do something—any old thing—that would furnish excuse for an anti-horse laugh or stirring applause. We would like to see just one more game in which the Giants start in with an air of supremacy, and maintain that proud manner to the end. Youngstown News. Hey! You! Wake up! Did anybody ever whisper to you that the Inter-State league is faster this year than ever before? What you want to do is to get eleven men that can play ball."

RINEHART AND MARTIN FIGHT.

Manager Rinehart, of Springfield, and Martin, a pitcher who has just been released, came to blows over a settlement on account of fines during which Cogswell, Whittridge and Williams chipped in, and it resulted yesterday in Williams asking and receiving his release. He immediately signed with Manager Hutchins, of the Mariettas. Several of the Governors claim they will resign if Rinehart is not dismissed. Rinehart has signed Schulz, late of the Virginia State league, as catcher, and Grant, of New Jersey, as pitcher.

CIVIC FEDERATION.

Hon. S. E. Nicholson's Address at the City Hall

Will Result in the Organization of a Branch of the Good Citizenship League—Committee Appointed.

There was a large attendance at the city hall last evening to hear Hon. S. E. Nicholson, president of the Indiana Good Citizenship league, speak on the subject, "Good Citizenship." Mayor Scherer was not present to preside and the meeting was called to order by Rev. J. S. Ainslie, and Rev. D. J. Rose offered prayer. Mr. Nicholson was introduced and proceeded to a thorough discussion of his subject, dwelling on the great work to be accomplished by the organization of Good Citizenship leagues. He was frequently applauded during the address and was congratulated at the close. The meeting then took up the question of organizing a local branch of the state organization, to be known as a civic federation. It was decided to organize and a provisional committee, consisting of W. E. Clapham, J. D. Williams, Paul E. Mossman, Alexander Johnson, I. N. Mosher and Fred Antrup, was appointed to designate a committee of twenty, who will elect officers. The constitution and by-laws provided by the state organization were adopted, as follows:

CONSTITUTION.

ARTICLE I.—NAME.

This organization shall be known as the "Civic Federation" of Fort Wayne, Indiana.

ARTICLE II.—OBJECTS.

This Federation shall stand for good citizenship, the enforcement of law, the promotion of sobriety, the correction of injustice, and will co-operate with all officers and constituted authorities in a faithful administration of the public service. It will, also, seek to advance all moral and civic movements which it may deem to be of large importance.

ARTICLE III.—MEMBERSHIP.

All persons in sympathy with the objects of this federation and purposing to co-operate with it may become members by signing the constitution, and contributing to its treasury. (?) And any church club or other organization in sympathy with the objects of the federation is invited to send a delegate member.

ARTICLE IV.—MANAGEMENT.

The management of the federation shall be vested in a board of managers, who shall be elected at the annual meeting, ten of whom shall be from the subscription membership and ten from the delegate membership.

The president, vice president, secretary and treasurer of the federation shall be ex-officio president, vice president, secretary and treasurer of the board of managers.

ARTICLE V.—OFFICERS.

The officers of the federation shall be chosen by the board of managers and these officers shall be a president, a vice president, a secretary and a treasurer, and their duties shall be such as pertain to these several offices.

ARTICLE VI.—AMENDMENTS.

YOUR CAR, PET!

Don't always ask your friend how his health is. It sometimes makes him tired. For a change ask him how his CARPETS are. Ask him where he got them. If he bought them from US well and good. They're all right. Congratulate him and ask no further questions. If he bought them elsewhere don't roast him, it's just possible they may be good, but speak to him calmly and try to persuade him that the Indiana Furniture Co. WOMEN! DON'T WAIT.

If You Have Any of These Symptoms Act at Once.

Do you know the reason why you will go to the hospital, my poor friend?

Because you have allowed yourself to go from bad to worse. You did not know that that heat, swelling and tenderness in your left side were all signs of congestion of the ovary.

Any intelligent woman could have told you that congestion is fatal to the uterine system, and that an ovary congested leads to tumor formation, and that you were in awful danger. Now you will have to undergo the operation of ovariotomy, the cutting out of the ovary.

Yes, you will recover, at least I hope you will, but you will never be quite the same woman again. Congestion of the ovaries is fatal to health. If you have any such symptoms be advised in time; take a medicine of specific powers! You can find none better than Lydia E. Pinkham's Vegetable Compound, prepared especially to meet the needs of woman's sexual system. You can get it at any good druggist's.

Following we publish a letter from a woman in Milwaukee, which relates how she was cured of ovarian trouble: "Dear Mrs. Pinkham—I suffered with congestion of the ovaries and inflammation of the womb. I had been troubled with suppressed and painful menstruation from a girl. The doctors told me the ovaries would have to be removed. I took treatment two years to escape an operation, but still remained in miserable health in both body and mind, expecting to part with my reason each coming month. After using one bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash I was very much relieved. I continued to use your remedies until cured. The last nine months have been passed in perfect good health. This, I know, I owe entirely to the Vegetable Compound. My gratitude is great, indeed, to the one to whom so many women owe their health and happiness."—Mrs. F. M. Knapp, 543 Wentworth Ave., Milwaukee, Wis.

Frank Huger, an Old Railroader, Dies Suddenly.

The Shopmen Preparing for Their Annual Excursion—Accidents and Incidents of the Day.

Col. Frank Huger, superintendent of transportation of the Norfolk and Western railway, died suddenly at his home in Roanoke, Va., last night from a stroke of apoplexy. Colonel Huger was one of the oldest officers of the road. He served with distinction as colonel in the Confederacy during the late war. He was sixty years of age.

SHOPMEN'S EXCURSION.

The railway officials at Pittsburg have approved of the date, June 19, selected for the annual excursion and picnic of the Pennsylvania shopmen and the event will come off at that time. Messrs. O. E. Bradway, J. H. Fry, J. A. Graham and Enoch Cox, who are members of the committee on grounds, and T. J. Rohrbaugh, the president, went to Rome City this afternoon to look over the grounds and arrange for the field and aquatic sports. Tonight a band will be selected from the three applications now in the hands of the committee, and some time next week a printed program of the day's exercises will be issued. The officials have ordered forty coaches sent here for the occasion.

Chicago business men are displeased that the Wabash sends its business from central Illinois to Toledo instead of to Chicago, and gives rates which draw the business to Toledo and discriminate against Chicago.

J. H. Burgoon, general manager of the Ohio Southern railway, has resigned and N. E. Matthews, one of the receivers, was appointed in his place. The headquarters will be removed from Springfield to Lima, Ohio.

Those best acquainted with the situation predict that the taking of the Columbus and Hocking Valley road out of the hands of a receiver is many months distant. When the receiver was appointed sixty days was the time fixed. The interest due June 1 on the first mortgage bonds was not paid, which still further complicates matters.

The board of managers of the Joint Traffic association has approved the recommendation of the Central Passenger association that the Cleveland, Akron and Columbus railway be authorized to run an excursion to Niagara Falls and return at a round trip per capita fare of $6 from Columbus, Ohio, with proportionate fare from intermediate points.

WHERE MINES GROW.

Of late years silver production has outstripped gold. A different condition of affairs exists in the now renowned Kootenai country. While silver predominates in some localities there, yet the streams have placer gold in paying quantities, and at Rossland, in the Trail district, gold is king. Copper and iron are found and coal also, at some places.

The recent development of this region and of that contiguous thereto in Washington, has been phenomenal. Mines of exceeding richness, from the grass roots down, have been opened all over the mountains; railroads have been built into and through the country; steamboat lines on the lakes and rivers have been increased and expanded, and towns sprung up as if by magic.

The country is good for rich or poor, the climate is mild and bracing, and the scenery grand beyond description.

Among the prominent mining camps are Rossland, Nelson, Ainsworth, Kaslo, Slocan, Salmon River, Cariboo and Deer Park.

The mountains are well timbered, rendering fuel cheap, and living expenses are reasonable.

Smelters are located at several points contiguous to the mines.

The year 1896 witnessed a wonderful emigration to the Kootenai country, and it will be eclipsed by the record of 1897.

The direct route to this land of gold, from the east, is via the Northern Pacific railway to Spokane, Wash., and Spokane Falls and Northern railway from that point north.

West of the Rossland region lies the Boundary Creek country—practically a continuation of the former—of very rich promise but as yet of meagre development. South of the Boundary line, in Washington, is the "Reservation" country, a land also of promise.

A full description of the Kootenai region can be obtained by sending to Chas. S. Fee, Gen. Pass. Agent, N. P. Ry., St. Paul, Minn., for their new Kootenai Folder and elaborate relief map. This is the best map published of the Kootenai. su26 tf

It Was A Great Success.

All that we desired was accomplished in our great Dissolution sale.
